

7-3 Test Diagrams

Test diagrams illustrate the execution plan, module coverage, and result distribution.

1) Module Coverage Diagram

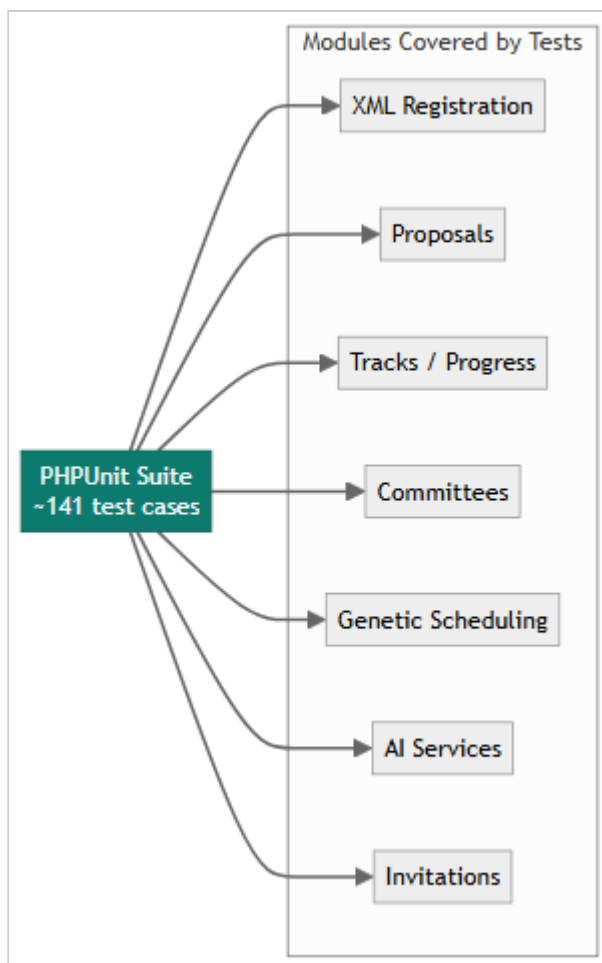

Figure 7-3: Modules Covered by Test Cases

Image file: diagrams-en/03-test-coverage-modules.png

2) Sample Primary Test Cases

ID	Module	Objective	Expected Result
TC-XML-01	XmlRegistration	Student registers with matching email + university number from XML	Account becomes active
TC-XML-02	XmlRegistration	Supervisor registers with matching email only	Account becomes active
TC-PROP-01	ProjectProposal	Submit up to 3 proposals without early track lock	Submission succeeds without premature track assignment
TC-PROP-02	ProjectProposal	Approve a proposal	Project is created + track is assigned
TC-TRACK-01	Track	Prevent skipping prerequisites	Stage remains locked / request rejected
TC-GA-01	GeneticScheduler	Generate schedules without hard conflicts	Valid candidates with fitness scores
TC-COM-01	Committee	Prevent project supervisor from sitting on that project's committee	Conflict rejected

3) Results Diagram

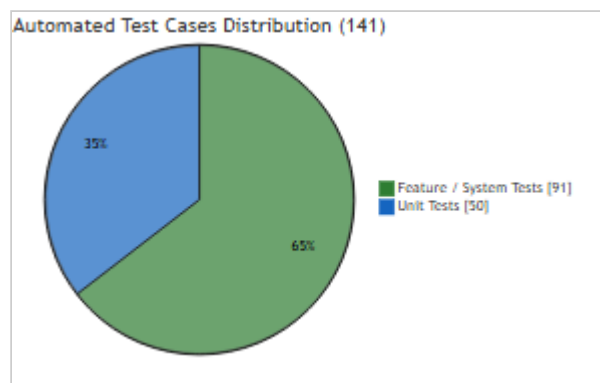

Figure 7-4: Automated Test Case Distribution
